WEST COUNTY
WASTEWATER

West County Wastewater's Statement on the Mass Shooting in Buffalo, NY

Our hearts go out to the families of the victims involved in the tragic mass shooting in Buffalo, New York, this past weekend. Reports state the shooter opened fire in a Buffalo supermarket with the expressed intention of targeting the Black Community. The more we learn about this heinous act of hatred, the more our hearts ache.

West County Wastewater is proud to be part of a Black Community here in Richmond, California, and surrounding cities. We are also proud to have a diverse workforce who represents our community of all color. These violent acts in Buffalo were not random acts- this was a preplanned, intentional murder of an innocent community. When tragedy like this occurs anywhere, it is felt right here at home.

Today and going forward, we keep the community of Buffalo and our own West County community in our thoughts and continue to strive towards inclusion, awareness, and peace.
