**West County Wastewater Crews Complete Repair in the  
Castro Ranch Area of Richmond**

(RICHMOND, CA) On the evening of Wednesday, July 26, 2023, at 8:10 p.m., repairs to a broken sewer pipe were completed at the Carriage Hills Pump Station on Castro Ranch Road in Richmond.

Initially, West County Wastewater (WCW) crews arrived at the area at approximately 8:15 a.m., Wednesday, July 26, 2023, after being alerted to a broken sewer main. Trucks were on-hand to pump the contents of the sewer main while the pipe was dug up and repaired.

After repairs were completed today, the pipe was tested, retested, and is now back in service. The entire force main is scheduled for replacement.

WCW staff will continue to monitor the pipe and the lift station in this area.

If you see any sewer backups or issues in your home or in the community, please call **(510) 222-6700**.

###

*West County Wastewater (WCW) was founded in 1921 to protect and serve the public health of the community through the construction and maintenance of a sewer system. Today, WCW provides sewage collection, treatment and disposal services to approximately 34,000 residences and 2,450 commercial and industrial businesses. WCW serves a total population of about 100,000 residents across 16.9 square miles. Governed by a five-member Board of Directors, WCW embraces practices that promote energy efficiency and environmental stewardship.*
